A Month for YOU!
October 2019

You work tirelessly day in and day out to ensure the success and well-being of each student and adult in your learning community, and National Principals Month devotes the entire month of October to thank you for all you do. This year, the National Association of Secondary School Principals, the National Association of Elementary School Principals, and the American Federation of School Administrators are taking this initiative a step further—we are advocating for real change to support you in the principalship.

We are using National Principals Month to not only celebrate all that you do, but also to raise awareness across the country. We are calling on teachers, community members, policymakers, and even fellow principals to join the charge to increase your decision-making authority, expand your professional development opportunities, improve your working conditions, strengthen principal pipelines, combat growing shortages, refine accountability policies for better outcomes, and increase your pay. We want to help keep you in your position so you can have the biggest possible impact on your students.

You fight every day to give your students the best education—and now we're using National Principals Month to fight for you and with you.
